

Session Program

27-30 Sept 2021

The 30th International Workshop on Vertex Detectors

Current experiments

Oxford, VIRTUAL

Monday 27 September

12:10

Current experiments

Session | **Location:** Oxford, VIRTUAL | **Conveners:** Ian Shipsey, Paula Collins

12:10–12:40 **Experience with the ATLAS Inner Detector**

Speaker

Masahiro Morinaga

12:40–12:55 **Experience with the CMS Inner Detector - YSF talk**

Speaker

Redwan Md Habibullah

12:55–13:25 **Operational experience of the BELLE II Silicon Vertex Detector**

Speaker

Yuma Uematsu

13:25–13:40 **Break**

13:40–14:10 **Operational experience of the BELLE II pixel detector**

Speakers

Boqun Wang, Boqun Wang

14:10–14:40

Tracking for LHCb Run3 - VELO detector construction and the Silicon Upstream Tracker

Speaker

Igor Kostiuk

14:40–15:10 **Upgrade of the ALICE ITS detector**

Speaker

Felix Reidt

15:10–15:25 **Break**

15:25
