

LIST of POSTERS

Presenting/First Author	Title	Poster No
Sayanti show	An Interdisciplinary Approach For Separation of Accelerator Produced ^{210}At From Bi using Aqueous Biphasic System – A Green Separation Method	1
Sumana Mukherjee	Spatial distribution of Naturally Occurring Radioactive Materials (^{226}Ra , ^{232}Th , ^{40}K) in the Ranchi district of Jharkhand, India	2
Nilanjana Sarkar	Exploration of Natural Radioactivity by Measuring Ground Water Radon in Dhanbad district of Jharkhand	3
Chiranjib Barman	Identification of Radioisotopes Produced from The Interactions of ^{20}Ne (108 to 171 MeV) on Gold Target	4
Shatabdi Ghosh	Studies on Adsorption of No-carrier added ^{107}Cd by Nature Resourced Chemical Eugenol	5
Puja Samanta	Conformational Preferences Driven by Heavy Atom Substitution: Study of Binary Complexes of RChH (Ch= O, S, Se, Te) With Ethyl Cinnamate and Acetophenone	6
Rimpa Mondal	N-Formylation of Amines by a Magnetically Separable Cobalt Nanocatalyst Using CO as a C1 Source	7
Marufah Parvin	Preparation of Durable and Functional Superhydrophobic Cotton Fabric Using TiO_2 and Fluoropolymer for Advanced Textile Applications	8
Tandrima Banerjee	Multiscale DFT–Martini Molecular Dynamics Investigation of Sodium Dodecyl Sulphate Organization at the Air–Water Interface	9
Barnali Dasgupta Ghosh	Waste Valorization for the Production of High-Value and Sustainable Materials	10
Seikh Asif	Gamma-Irradiation Induced Mechanism Switch in Graphene Quantum Dots for Ultrasensitive “Turn-On” CEA Fluorosensing via Multivariate Calibration	11
Swarupa Mondal	In Silico Targeting Of Acetylcholinesterase And Glutathione S-Transferase Supports Potent Mosquito Larvicidal Activity Of A Novel Coumarin Analogue [6-(2,5-Dihydro-1H-Pyrrol- 1-Yl)-2H-Chromen-2-One]: Insights From Biochemical And Molecular Docking Studies	12
Atri Das	Evaluation of Anti-inflammatory Effects of Combinations of Quercetin with Specialized Pro-Resolving Lipid Mediators in LPS-Stimulated RAW 264.7 Cells	13
Lisa Basu	Exploring the Parasitic Diversity of Freshwater Fishes of the Lower Gangetic Plains: Highlighting the Potential Use of Nanoparticles Derived from Locally Available Medicinal Plants for Fish Parasites Control	14
Tiyasa Ray	Fluorescence “Turn-On” Sensing of Triglyceride Using a Gd–Morin Crosslinked Chitosan Hydrogel	15

Sushmita Nandy	Coupling Between C5-Uracil and sp/sp ² Carbon Center Using Uracil Containing Cyclic Hypervalent Iodine Reagent	16
Md Abbasuddin Sk	Synthesis of Uracil-Based Oxazolidinone Derivatives Employing Uracil-BX and NaHCO ₃ as a CO ₂ Surrogate	17
Sayan Das	Synthesis and Bioevaluation of [¹⁷⁷ Lu]Lu-Carbon Dots for Radionanotheranostics of Solid Tumor	18
Susmita Chakraborty	Modulator-Controlled Structural Tuning of Ni–Ce Bimetallic MOFs for Efficient Oxygen Evolution and Urea Oxidation Electrocatalysis	19
J. Malsawmsanga	A titania-derived AgNPs/GO nanocomposite thin film for enhanced photocatalytic degradation of ibuprofen and tetracycline in aqueous medium	20
Barsha Rabha	Novel Iron-Free Nano-Fenton-Like Catalyst for Sustainable Treatment of Tetracycline and Ciprofloxacin	21
Shalmali Basu	A “Turn-On” Fluorescent Graphene Quantum Dot Probe for Highly Selective Calcium Ion Detection	22
Thomas Hau Sian Muang	A High-Performance Heterojunction Catalyst for the Efficient Degradation of Amoxicillin and Propyl-2-thiourea: Reactive Species Analysis, and Ecotoxicity Assessment	23
Dikshit Bokotial	Artificial Light Harvesting Pt (II) Cages and Their Anticounterfeiting Properties	24
Lalremruati	Novel 2,5-Diketopiperazine Analogues: Design, Synthesis, and Study of Anticancer, DNA Binding and Anti-oxidant Activity	25
Totan Ghosh	Homogeneous Water Oxidation Electrocatalysis by a Highly Stable Iron (III) Schiff-Base Complex	26
Sunita Jhulki	Anticarcinogenic Potential of Resveratrol-conjugated Gold Nanoparticles Against Triple-negative Breast Cancer Through Induction of Apoptosis And Migration Inhibition: A Targeted Nanotherapeutic Approach	27
Manik Das	Highly Water-Stable Blue Luminescent 2D MOF as Dual Sensor for the Ultra-Sensitive Aqueous Phase Detection of Nitrofurantoin Antibiotics and Organochlorine Pesticides	28
Bhaskar Banerjee	Three in One: Concurrent Detection and Isolation of Antiaromatic, Non-aromatic and Aromatic Congeners of a Hexaphyrin Derivative	29
Srijeeta Talukder	Controlling Photodetachment and Photodissociation Dynamics: Case Study - F ₂ /F ₂ ⁻ and HFCl/HFCl ⁻ Systems	30
Purabi Dutta	Synthesis of Fluorescent Lipophile for Selective Detection of Hg(II) and Ag(I) Ions in Aqueous Medium	31
Shabnam Sultana	Influence of Counteranion on the Anticancer Properties of Hydrazido-Co(II) Complexes: Synthesis, Characterization and Prostate Cancer Studies	32

Suman Mandal	Redefining Nonendocytic Intracellular Delivery with Guanidinium-Engineered Poly(succinimide) Nanocarriers	33
Prateeti Chakraborty	Microplastics and Nanoplastics: Environmental Distribution, Biological Impacts, and Emerging Health Concerns	34
Shantanabha Das	Impact of Changing Physicochemical Parameters on The Planktonic Ciliate Community of The Sundarbans Estuarine System: Perspective of Hourly Scale	35
Susmita Ghosh	NiO-YSZ Cathode Supported Solid Oxide Cell for HighTemperature CO ₂ -Steam Co-Electrolysis: Electrochemical Performance and Characterization	36
Arpita Chandra	The Anticancer Activity of Two Novel Metal Schiff Base Complexes Through Spectrophotometric And Computational Approaches Against Melanoma: A Mechanistic Insight	37
S. Hati	Tailoring the Catalytic Activity & Kinetics of Sr ₂ Fe _{1.5} Mo _{0.5} O ₆ via Cobalt Doping and In-Situ Nanoparticle Exsolution for Solid Oxide Cell Electrodes	38
Susmita Mondal	The Phytochemical Mahanine Targets Glioblastoma Stem Cells by Suppressing Sonic Hedgehog and mTOR Signaling	39
Sima Orang	Integrating Nanotechnology and Plant Growth-Promoting Rhizobacteria for Sustainable Crop Production	40
Sresha Sarkar	Halogen-Substituted Supramolecular Picrate Derivatives as Potent Antibacterials Against <i>Staphylococcus aureus</i> : Targeting Drug Resistance, Biofilms, and Membrane Integrity	41
Shrabani Sen	Stability, Oscillations, Rhythmicity...An Essence Toward Circadian Systems	42
