Resolution 4

One year extension of the membership of Nepal as an IUPAP ATM

The 35th IUPAP General Assembly, *referring to* the terms of the Memorandum of Understanding (hereafter "MoU") signed between the Nepal Physical Society (NPS) and IUPAP in 2023, covering the years 2024 to 2026, and *noting* the catastrophic floods in Nepal, it is resolved that the MoU should be extended to September 2027 to allow the Nepal Physical Society adequate time to submit a self-evaluation report on how it has used its Associate Territorial Membership status to advance physics in Nepal.
