

Resolution 9

Establishment of a new IUPAP Standing Committee on Fusion

Recognizing the importance of promoting international cooperation in nuclear fusion research and development, and the need for a unified, inclusive and transparent global framework that bridges national borders, scientific disciplines and geopolitical divides;

The 35th IUPAP General Assembly resolves to establish a Standing Committee on Fusion, operating under Commission C16 (Plasma Physics).

The Standing Committee shall be mandated to promote and facilitate international cooperation in nuclear fusion research and development, fostering dialogue and collaboration across the global fusion community.

Ursel Fantz is requested to propose the initial composition of the Standing Committee.
