

Establishment of a new Commission on Quantum Technology

Recognizing the decision of the 34th IUPAP General Assembly to dissolve Working Group 19 on Quantum Science and Technology, with the intention of establishing a dedicated Commission on Quantum Technology;

The 35th IUPAP General Assembly resolves to establish a new IUPAP Commission on Quantum Technology.

A Chair of the new Commission shall be identified in the coming months, together with a proposed list of Commission members. The proposed Terms of Reference and membership of the Commission shall be submitted to the 36th IUPAP General Assembly for approval, with a view to the Commission becoming fully operational as of 1 January 2028.
