

## Session Program

8-12 Jun 2026

### Space Climate 10

#### ***1.3 Long-term TSI/SSI variability (chair Laure Lefevre)***

## Wednesday 10 June

09:20

### 1.3 Long-term TSI/SSI variability (chair Laure Lefevre)

Session | Location: Åland Maritime Museum, HAMNGATAN 2 | Convener: Greg Kopp

09:20–09:40

#### The changing Sun: a review of TSI and SSI variability across time scales

**Speaker**

Francesco Berrilli

09:40–10:00

#### Secular Trends in Solar Irradiance: From Direct Measurements to Model Reconstructions

**Speaker**

Theodosios Chatzistergos

10:00–10:12

#### Updates (Including Two 'Final' Final Updates) to Total Irradiance Monitor Data and a Survey of Solar Flare Observations in TSI

**Speaker**

Greg Kopp

10:12–10:24

#### Reconstruction of annual solar irradiance over three millennia

**Speaker**

Duresa Temaj

10:24–10:36

#### Comparing direct and indirect proxies of centennial solar EUV irradiance

**Speaker**

Kalevi Mursula

10:36
