

## Session Program

8-12 Jun 2026

### Space Climate 10

***1.5 Solar-stellar relations and 3.5 Space climate at other planets (chair Nandi Dibyendu)***

## Wednesday 10 June

11:56

### 1.5 Solar-stellar relations and 3.5 Space climate at other planets (chair Nandi Dibyendu)

**Session** | **Location:** Åland Maritime Museum, HAMNGATAN 2 | **Conveners:**  
Vladimir Airapetian, Alexander Shapiro

11:56–12:16

#### Solar and stellar magnetic activity and variability

**Speaker**

Sowmya Krishnamurthy

12:16–12:36

#### Active Regions and Variability Across Main-Sequence stars

**Speaker**

Veronika Witzke

12:36–12:48

#### Modeling granulation induced variability in spectral lines: lessons from the Sun

**Speaker**

Sowmya Krishnamurthy

12:48–13:08

#### Local and Galactic scale factors of habitability of Earth and exoplanets, from a Space Climate perspective

**Speaker**

Merav Opher

13:11
