

## Session Program

8-12 Jun 2026

### Space Climate 10

#### ***3.4 Predictability in space climate (chair Delores Knipp)***

## Thursday 11 June

17:09

### 3.4 Predictability in space climate (chair Delores Knipp)

Session | Location: Åland Maritime Museum, HAMNGATAN 2 | Convener: Timo Asikainen

17:09–17:29 **Solar effects on El Niño and its potential predictability**

**Speaker**

Wenjuan Huo

17:29–17:49

**Can the EEP direct effect on mesospheric ozone change the global atmospheric dynamics?**

**Speaker**

Hilde Nesse

17:49–18:01

**Predicting geomagnetic activity in the ascending and declining phases of the solar cycle**

**Speaker**

Timo Qvick

18:01–18:13

**Space climate effects in the stratosphere as a source of improved winter weather predictability**

**Speaker**

Mikhail Vokhmianin

18:13
