

News

- Last time we decided to have monthly or bimonthly (if that's how you say once every 2 months) public meeting \Rightarrow keep a theme for each so it does not go too long
- Plan to have a first “public” meeting on June 17 from 11am to 1pm ET
- Have a talk by us on our plans (volunteers needed)
- Who to invite? Start with collaborators?
- Which topic?
- Discussion has started in several forums about how to build a FM for HEP: ATLAS internal, AI collaboration, in Europe
 - Let's think about this if we want to be involved

Timeline for results

- Paper 1 ⇒
 - Description of the pipeline
 - Different studies on even-level tokenization
 - Task application to show tokenization works
- Paper 2 ⇒
 - Does it make sense to have a separate paper on updates on jet tokenization including FCC-ee ?
 - Task application of course would be jet -tagging
- Target any conference?
- Reminder:
 - **Major Goals:**
 - **Goal 1: Demonstrate Cross-Experiment Data Formats and Representations Toward a Common Particle Identification Framework**
 - **Goal 2: Demonstrate Cross-Experiment AI Discovery through Higgs Event Reconstruction**
