Start with WHY

Inspired by Simon Sinek talk on TEDx

Simon Sinek on TEDx
["Start with why"](#)

WHY create a User Forum for the EOSC Federation?

- The EOSC Federation is made up of many different communities not a single community.
- Nodes (except the EEN) are federating services which are already in production part of an existing facility

Q: Who are the users of the Federation then?

1. **Identify who the Users are and give them a voice**
2. **Provide a place where Users can discuss**
3. **Gather User needs + feedback + complaints**
4. **Provide Users a place to publish and find results**
5. **Help Users to find solutions, data and services**
6. **Provide human generated feedback to Users**
7. **Provide Nodes a place where they can discuss, share solutions and interact with Users from other Nodes**
8. **Create a community with a common identity and brand**

How Step 1

GO TO the forum

We are so glad you joined us.

Here are some things you can do to get started:

🗣️ **Introduce yourself** by adding your picture and information about yourself and your interests to [your profile](#). What is one thing you'd like to be asked about?

📖 **Get to know the community** by [browsing discussions](#) that are already happening here. When you find a post interesting, informative, or entertaining, use the ❤️ to show your appreciation or support!

👉 **Contribute** by commenting, sharing your own perspective, asking questions, or offering feedback in the discussion. Before replying or starting new topics, please review the [Community Guidelines](#).

If you need help or have a suggestion, feel free to ask in [Site Feedback](#) or [contact the admins](#).

Log In

MyAccessID

How

Step 4

Use your institutional identity to login with EOSC AAI / MyAccessID

Login with

**ESRF - European Synchrotron
Radiation Facility**

esrf.fr

Done

1. Find your Identity Provider

Search by institution name, email to find your Home Organization, Institution or University.

2. Log-in

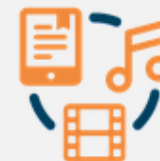

Use your institutional credentials to log in as you normally do. If you do not have any, use any of the available guest and social identity providers

3. Enjoy

Access the content and features provided to your community.

4. Explore

Continue to work seamlessly with your community access.

EOSC Symposium 2026 User Session

■ General

andygotz

1 21h

This topic is dedicated to the [User Forum session at the EOSC Symposium 2026](#) ¹ on the 14th October 2026 in Florence.

Everyone is invited to post questions, comments and feedback before, during and after the session by replying to this post.

If you haven't signed up for the forum yet then please do so NOW and try sending your first post. Tell us how what you would like to see in the forum or how you think it can help to build the EOSC Community.

Posts on other topics are of course welcome too. The User Forum is your voice as user of the EOSC Federation.

WHAT can the User Forum achieve

- **NEEDS**

- More and more Users and Nodes to join and be active the User Forum
- More and more posts + replies will help Users adopt EOSC Federation services

- **ENABLES**

- Users find and post solutions to common problems which then help more users
- Nodes to improve the User eXperience through Users feedback and discussion with Nodes

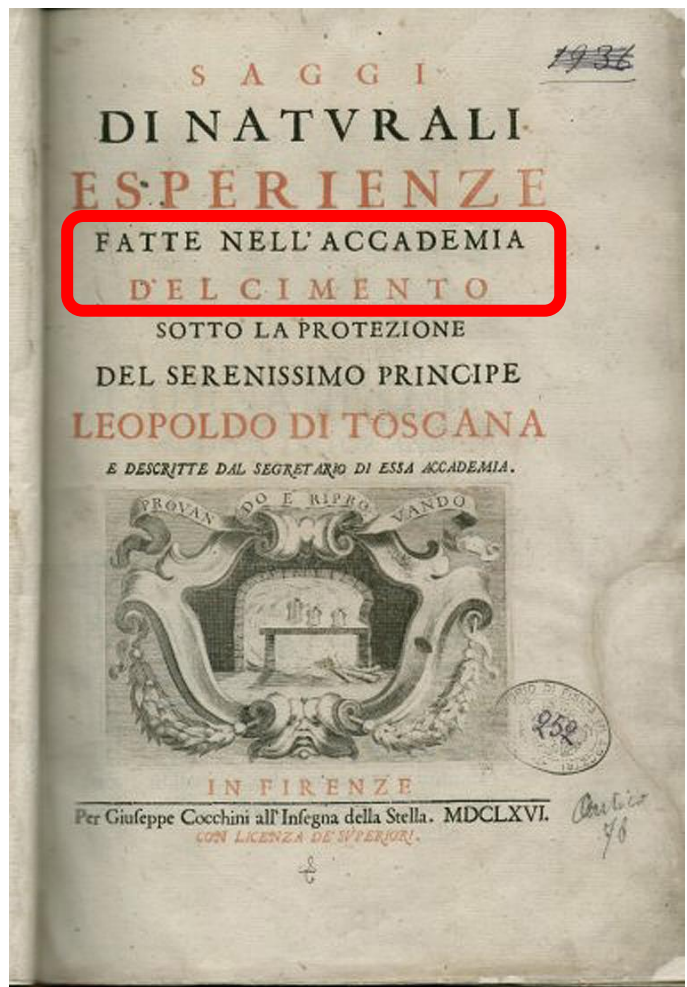

- **RESULTS**

- The User Forum becomes **THE** place to find out what others Users are doing in the Federation
- The Forum will create a common understanding of what the EOSC Federation provides and how it can continue to grow to help scientists do research and open science

The first User Meeting of EOSC Federation Users will be held in 2027 to highlight science being done with EOSC

eosc The Renaissance of the EOSC community

The **User Forum** will help (re-)create the EOSC Community in the Federation
