Achievements of the EOSC Association

Klaus Tochtermann

President, EOSC Association

eosc

EOSC brings Europe's high-quality data to researchers and AI, opening a new frontier in scientific discovery.

eosc.eu

EOSC delivers: The Federation enters production

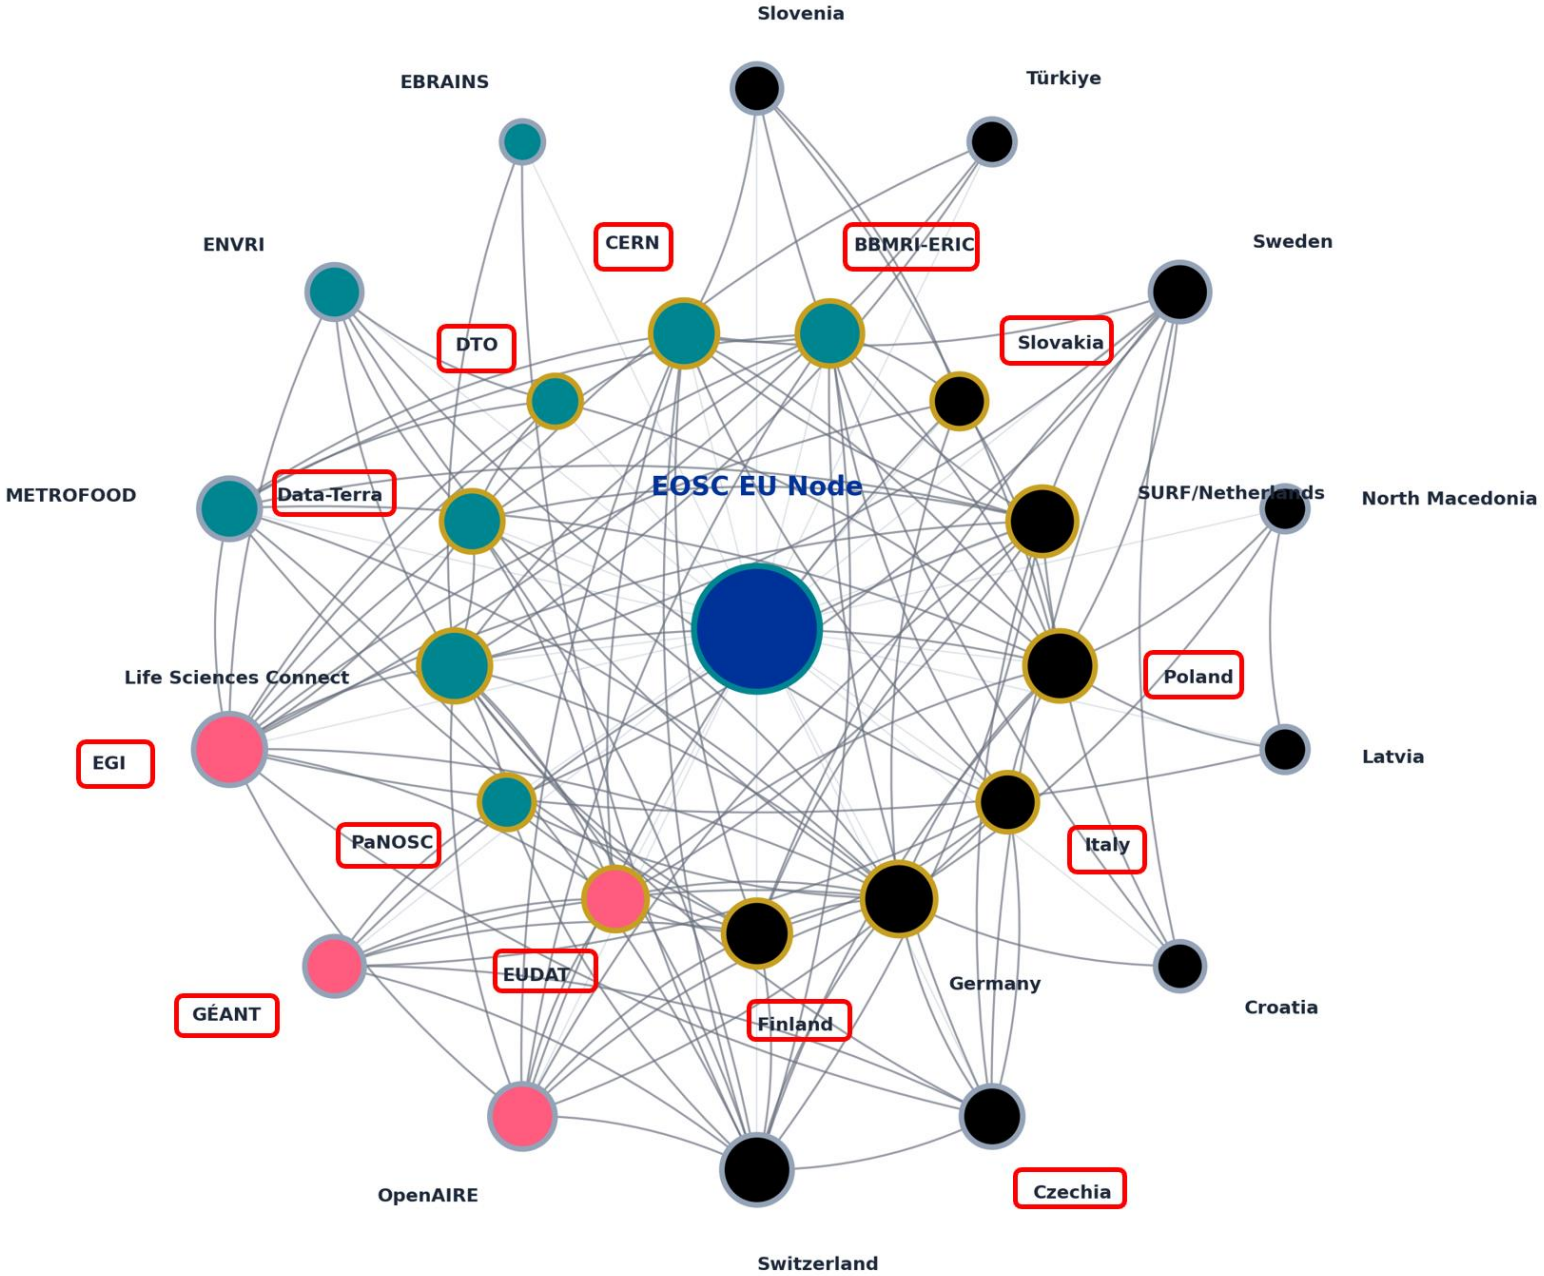

Node type

- National
- Thematic
- E-Infrastructure
- EOSC EU Node (universal)

Production-ready

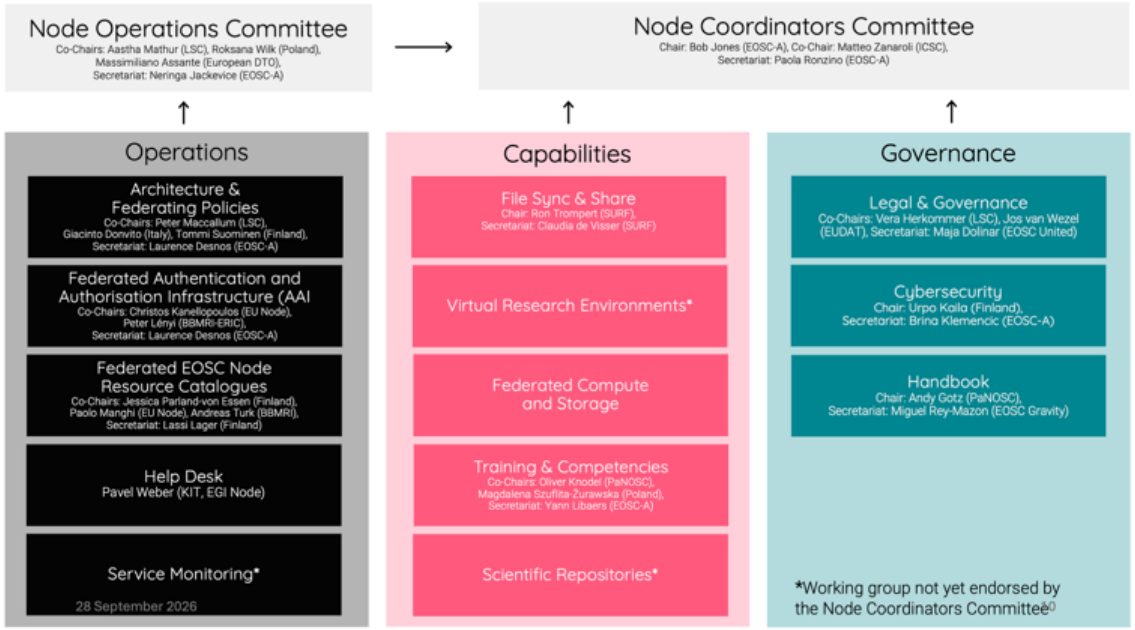

Enrolment wave & links

- First wave (13) — inner ring
- Second wave (14) — outer ring
- Documented node-to-node link
- EU Node dependency (all nodes)

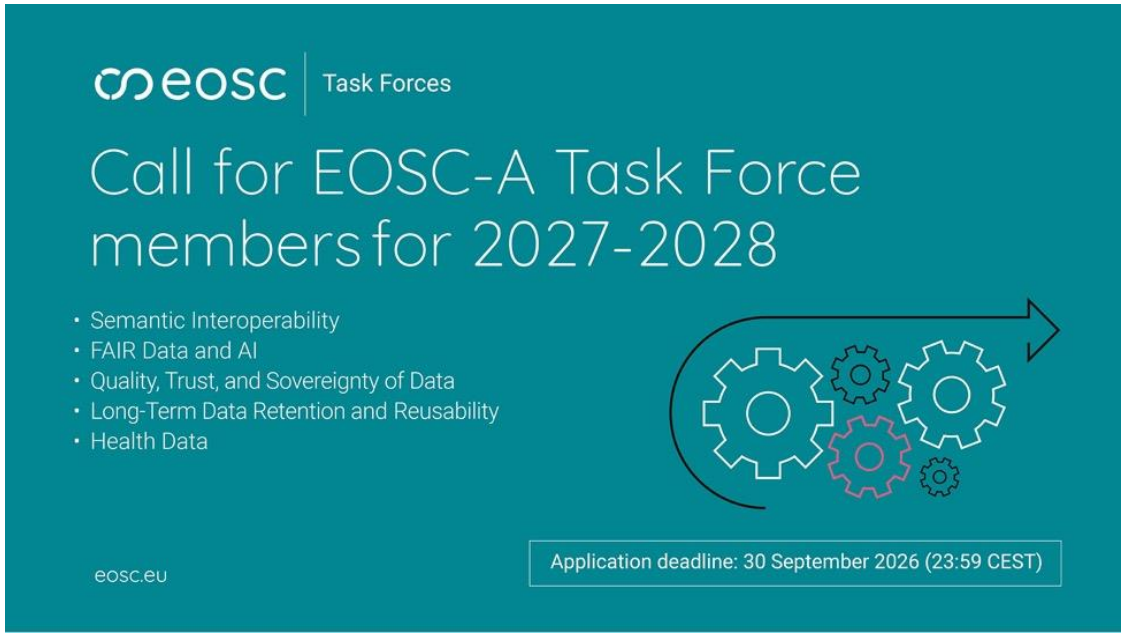

EOSC delivers: Working Groups and Task Forces mobilise the community

317 individuals participating in EOSC Federation governance and working group bodies

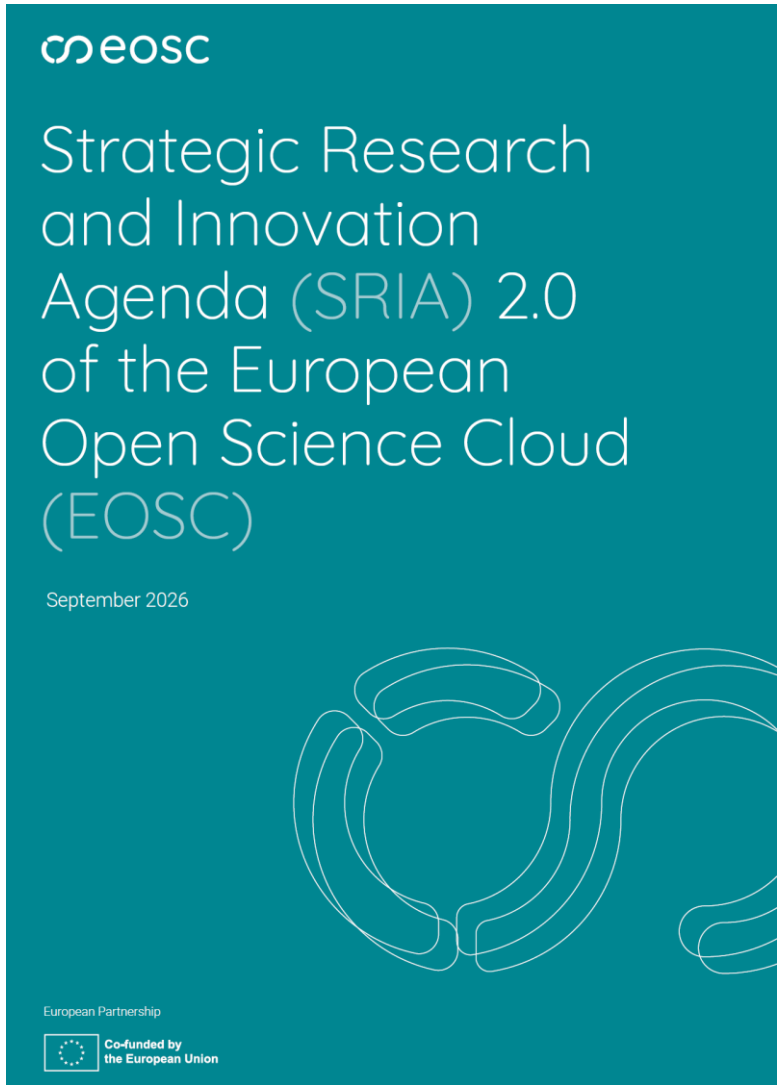

235 applications received in a call for EOSC-A Task Force members for 2027-208

- Semantic Interoperability: **49**
- FAIR Data and AI: **76**
- Quality, Trust and Sovereignty of Data: **41**
- Long-Term Data Retention and Reusability: **25**
- Health Data: **44**

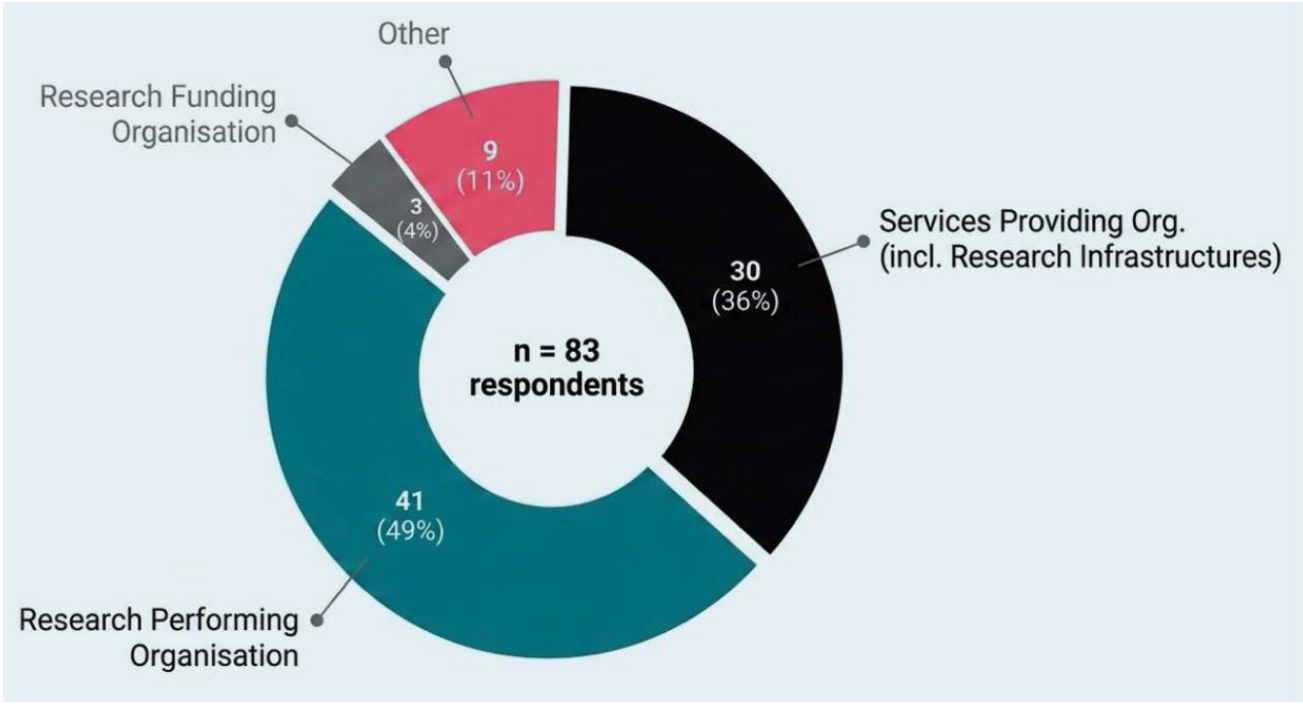

EOSC delivers: SRIA 2.0 is published

DOI 10.5281/zenodo.23159944

Distribution of responses of SRIA 2.0 public consultation by organisation type

EOSC defines five Strategic Priorities for 2026-2030

1 Operationalisation of the EOSC Federation

- Governance & Sustainability
- Production-Readiness
- Technical Implementation

2 Sovereign, Secure, and Trusted Research Data

- Data Sovereignty, Research Security, and Scientific Data Quality
- Long-Term Retention and Reproducibility of Research Outputs
- Advanced Automation of FAIR and Quality Assessment

3 AI and EOSC

- Common Understanding of AI and Strategic Convergence
- AI for FAIR: Leveraging AI for Data Management
- FAIR for AI: Ensuring Data Readiness

4 User-Centricity

- Engaging Researchers and Drive Scientific Discovery
- Fostering Skills, Capacity, and Career Development

5 Strategic Alignment and Global Collaboration

- Strategic Alignment with European Initiatives
- Global Collaboration
