

Purpose and resources

- Lower the barriers for NRENs to join the EOSC Federation
- Act as gateway to services delivered by NRENs
- Provide the technical solution for the AAI EOSC Federating Capability, aligned with the EOSC EU Node
- Offers network, security, and trust & identity services

Value to EOSC

- Leverage GÉANT's expertise in network architecture, trust & identity, security, and global federation interoperability (e.g. eduroam and eduGAIN).
- Offer specialist, high-scale network, security, and trust & identity services.
- Bridge EOSC and the EuroHPC JU through high-bandwidth network and the shared federated AAI (MyAccessID)
- Expand the EOSC Federation with services offered by the NREN community.

The team

Node Coordinator

- Mark van de Sanden
- Christos Kanellopoulos (deputy)

Node Operations Officer

- Mandeep Saini
- Christos Kanellopoulos (deputy)

Cyber Security Officer

- Alf Moens

Legal Officer

- Monique Pellinkhof

Communications Officer

- Rosanna Norman

And many more

- System administrators, software developers, and AAI experts
