

Ludek Matyska

Director
CERIC-SC, Masaryk University

Luděk Matyska is Professor of Computer Science at Masaryk University, Director of CERIT-SC at the Institute of Computer Science, MU, and Senior Scientist at CESNET. He has long been involved in European and national e-infrastructure, distributed computing, and Open Science initiatives, including many EU- and nationally co-funded projects. He is currently a member of the EGI.eu Executive Board and plays a leading role in the Czech implementation of EOSC: he chairs the Steering Board of EOSC-CZ and directly leads the National Repository Platform, two central projects shaping the Czech EOSC backbone and services. His recent work focuses on trusted research environments, authentication and authorization infrastructures, high-performance networking and computing, and practical implementation of EOSC services for FAIR and sovereign research data.
