

Enrique Bernal-Delgado

Senior Scientist, Aragonese Institute
of Health Sciences (IACS)

Director, EOSC Association

Enrique Bernal-Delgado MD PhD is also Master in Public Health and Master in Health Economics. Since 2003 is heading the Data Science Unit for Health Services and Policy research at the Instituto Aragonés de Ciencias de la Salud (IACS), where he holds the position of Senior Scientist. His scientific career comprises data-driven policy research including the creation of federated research infrastructures for real-world health data mobilisation. He has definitely contributed to the design and construction of the European Health Data Space and, currently, he is serving as a member of the Board of Directors of the European Open Science Cloud.
