

Irene Schlünder

Lawyer

Technology and Methods Platform
for Networked Medical Research
e.V. (TMF)

Irene Schlünder is a lawyer and expert in EU data protection law and database governance. She works for TMF e.V., a member based German umbrella organisation for academic biomedical research in Berlin and is involved in various European research projects. She is also a member of the ELSI Service & Research Unit of BBMRI-ERIC and was involved in the EHDS2Pilot project as WP lead and now leads the legal WP in UNCAN. In addition, she is active in the implementation of the EHDS and works in TEHDAS2 on behalf of Germany. She will lead the regulatory WP in the EU project SCAILED (Scale -up biotech AI innovation by Leveraging data under EHDS) starting in October 2026.
