

Valeria Ardizzone

IAM Solution Manager
EGI Foundation

Valeria Ardizzone is IAM Solution Manager at EGI Foundation and service owner of EGI Check-in, with over twenty years of e-Infrastructure experience from research roles at INFN Catania and GARR Milano-Bicocca. She leads EGI's identity, access and trust work and as a member of the AARC Architecture Working Group, she contributes to technical/policy guidelines and Blueprint Architecture and to the EOSC AAI Federation architecture. Her Data Spaces experience includes the DSSC Data Sovereignty group, Gaia-X's Identity, Credential and Access Management expert group, and IDSA Data Space Fundamentals certification. She has contributed to projects exploring Self-Sovereign Identity for Data Space connectors and works on trust interoperability between EOSC and SIMPL-Open Middleware on data sharing mechanisms.
