

Laurents Sesink

Program Manager

SURF

Laurents Sesink is currently program manager of the Innovation Zone Open Science at SURF. SURF is the mandated organisation for the Netherlands in the EOSC-A and participates in the first wave of EOSC nodes. Laurents is responsible for coordinating the establishment of the EOSC node Netherlands.

Laurents studied internal politics at Utrecht University and historical information science (Digital Humanities) at Leiden University, and he worked for several institutes at the Royal Netherlands Academy of Arts and Sciences, was Head Innovation & Projects and Head of the Centre for Digital Scholarship (CDS) at Leiden University Libraries before joining SURF in 2022.

Laurents was involved in fostering open access, data and research software management, digital longevity, Digital Humanities, Research Infrastructures and Open Science.
