

Giovanni Guerrieri

Coordinator for Data Infrastructure
for Open Science and VRE
CERN

Giovanni Guerrieri is the Data Infrastructure for Open Science and VREs Coordinator for the ESCAPE collaboration and the ATLAS Open Data project at CERN; he serves as Node Operations Manager for CERN Node in the EOSC Federation. He holds a PhD in Particle Physics from the ATLAS Experiment at CERN.

Giovanni also contributes to the OSCARS project as the ESCAPE responsible for the Cluster Competency Centre initiative, focusing on building a collaborative network of people in the context of the Science Clusters that provides expertise, best practices and services in relation to Open Science, while fostering cross-disciplinary collaboration.
