

Matteo Zanmaroli

EOSC Node Italy Coordinator
ICSC Foundation

Matteo Zanmaroli is Ethics and Data Governance Manager at ICSC, the Italian National Centre for High-Performance Computing, Big Data, and Quantum Computing. He also serves as the Coordinator of the EOSC Node Italy and Co-Chair of the EOSC Federation Build-up Group.

Matteo began his career with Datalogic, a global leader in the process automation market listed on the Italian Stock Exchange. During his tenure, he rapidly gained experience participating in various M&A activities and F TC investigations as a member of a multifunctional team. He focused on corporate-level qualitative and financial evaluation of intangible assets, monetization of the IP portfolio, and government channel fundraising activities. In addition, Matteo co-chaired the Industry Advisory Board of the NSF Center for Big Learning.

eosC Symposium 2026

Currently, he oversees ethics and data governance activities at Fondazione ICSC and has been involved in the creation of the Italian EOSC Node since its beginning.
