

Michal Med

Semantic, Interoperability and
Metadata Analyst
Czech Education and Scientific
NETwork (CESNET)

Michal is a semantic, interoperability and metadata specialist at CESNET, working on the EOSC-CZ project and collaborating within the EOSC Technical and Semantic Interoperability Task Force. He has contributed extensively to the Task Force's Semantic Interoperability deliverables, and currently works on the EOSC United Semantic Interoperability deliverable. He is also head designer of the Czech Core Metadata Model for research data (CCMM), the national core metadata model aimed at enhancing interoperability of research data. Michal is additionally a member of the Knowledge-based and Software Systems Group at the Czech Technical University in Prague, where he specializes in UFO and OWL ontologies, metadata and data description. The group stands behind TermIt, a tool for creating domain semantic vocabularies.
