

Giorgio Rossi

Professor of Physics
Università degli Studi di Milano

Giorgio Rossi is Professor of Physics at the Università degli Studi di Milano; he leads an experimental research group on the physics of matter at low dimension, exploiting and operating instrumentation at synchrotron radiation facilities in collaboration with CNR and Elettra in Trieste, Italy. He coordinates the NFFA-Europe (Nano Foundries and Fine Analysis – www.NFFA.eu) European research infrastructure for nanoscience since 2008. He is vice-president of Elettra Sincrotrone Trieste since 2026. He has chaired the ESFRI Physical Sciences and Engineering Strategy Work group in 2013-2016 and served as ESFRI Chair in 2016-2018. GR has chaired in 2019 the High-Level Expert Group on Long Term Sustainability of Research Infrastructure. He has coordinated the expert group who wrote the Italian National Plan for Open Science that become effective in 2022. He represents Italy in the EOSC Steering Board and contributes as co-chair to the Policy sub-group and in the ESFRI-EOSC Task Force. GR is the Italian Senior Official of the GSO on global research infrastructures, Chair of GSO in 2026. He is author or co-author of over 290 research papers in ISI journals, H=44.
