

Kostas Koumantaros

Head of Unit for Strategy,
Directorate of European
Infrastructures and Projects, Greek
Research and Technology Network

Kostas Koumantaros, MSc is a senior e-Infrastructure strategist with more than 20 years of experience in the design, operation, federation, and governance of large-scale European digital infrastructures for research, education, and Open Science. He holds a BSc in Computer Science (Software Engineering) from the University of Essex and an MSc in Advanced Computer Science (Software Engineering) from the University of Manchester. Since joining GRNET in 2002, he has held strategic and technical leadership roles in major European e-Infrastructure and EOSC initiatives. Kostas has extensive expertise in EOSC Core interoperability, with a particular focus on federated architectures, monitoring, accounting, AAI, service integration, and interoperability frameworks. He led Task T5.4 in EOSC-Hub, contributed to EOSC Profiles in EOSC-Enhance, and led the EOSC Back-Office Monitoring Framework task in EOSC-Future. In EOSC Beyond, he leads Work Packages 7, 8, and 9, driving the evolution of interoperable EOSC Core capabilities and their federation across national and thematic EOSC nodes.
