

Oliver Knodel

Head of Group Data Management
and HPC

Helmholtz-Zentrum Dresden-
Rossendorf (HZDR)

Oliver Knodel has over 15 years of experience in research, with nearly a decade dedicated to large-scale research infrastructures in the field of photon and neutron science within the Helmholtz Association and beyond, including international initiatives such as LEAPS and PaNOSC. In his role as head of the Scientific Data Management Group at HZDR for nearly five years, Oliver has been instrumental in advancing the publication and management of data and metadata for the large-scale facilities at the center. His work ensures that research outputs are accessible, well-documented, and aligned with best practices in scientific data stewardship. In this context, services and infrastructure have been developed to support scientists in their work, enabling FAIR-compliant results.

Through his participation in Horizon Europe projects like PaNOSC, he has significantly contributed to establishing the PaNOSC node within the European Open Science Cloud (EOSC), underscoring his dedication to open science and international collaboration.
