

COSMOLOGY in COLOMBIA

CoCo 2026

The Eighth CoCo meeting (Cosmología en Colombia) will be held from November 5 to 6, 2026, at Universidad ECCI, Bogotá — Colombia.

The goal of this meeting is to bring together cosmologists to discuss the current state of cosmology at the interface of theory and observations.

The main topics include:

- Inflation and the early Universe
- Cosmic microwave background
- Large-scale structures of the Universe
- Dark matter and neutrino astrophysics
- Dark energy and modified gravity
- Gravitational waves and multi-messenger astronomy

We expect this event to provide a platform for maximizing interactions and creating new collaborations.
