

US HFCC Detector Meeting

(Biweekly Friday 2pm Eastern)

Christoph Paus (paus@mit.edu)

Charlie Young (young@slac.stanford.edu)

Today's Agenda (August 7, 2026)

- News and announcement items
 - FY 27 funding requests
- Upcoming meetings
 - [4th US FCC Workshop](#) at SLAC, Sep 8-11, 2026
 - [BNL-CERN school](#) on physics at Future Colliders at CERN, Aug 27 – Sept 4, 2026
 - [CPAD 2026](#), Oct 20 – 23, 2026

FY 27 Requests

- Current set of inputs – with guidance on overall funding level
 - Went over them together, and had follow-up with some of you.
 - Discussed with Srini and Valentina yesterday.
 - No decisions yet but safe to say they will not all be funded.
- Request for additional inputs – can go beyond expected level
 - We had been too strict internally because we misunderstood the intent.
 - Expanded list including potential “missed opportunities”
 - Please prioritize all items (old and new) based on
 - Why US
 - Why now (meaning FY27)
 - Impact if not done now
 - Call out uniqueness if applicable, and any connections to AI
 - Deadline: next Wednesday 8/12
 - Format: Google form https://docs.google.com/forms/d/e/1FAIpQLSdGZs_AGJZkgeN-ZTngQtDgLdWSEWsarbPF8JKtYf5oCU8bIQ/viewform?usp=header
 - Setting expectations: new items are unlikely to be funded but important to document for DOE what we can do
