First ISNMP Virtual Conference

28 May 2027 - 30 May 2027

Bad Ems, Germany (broadcasting address)

Scientific Programme

Aim and Scope: This conference aims to bring together experts virtually to report and discuss their research progress on all aspects of nonlinear mathematical physics with a focus on integrable and exactly solvable systems. The main subjects of the conference correspond with the scope of the journal OCNMP. The Participants are encouraged to point out open problems in their presentations.

General session

The call of abstracts is now opened. The detailed scientific program is to be announced.
