

Belle results on hyperon spectroscopy and future prospects at Belle II

Wednesday 3 April 2024 14:30 (30 minutes)

I will talk on recent results on hyperon spectroscopy from the Belle experiment. The results include $\Lambda(1670)$, $\Sigma(1435)$, $\Xi(1620/1690)$, and $\Omega(2012)$. I will also discuss future prospects of the Belle II experiment.
