

Welcome to Institut Pascal !

Institut Pascal (IPa): a scientific hub, dedicated to research, innovation, the exchange of knowledge and the development of new ideas.

Institut Pascal aims to shape the identity and influence of the Paris-Saclay University, both regionally and internationally, as a place of intellectual excitement. The facilities allow numerous researchers from all over the world to unite, establish new collaborations, explore both new and common ideas and techniques while working on site.

Venue

Advanced Pattern Recognition program is hosted at Pascal building in Orsay, about 20 km south-west of Paris. The venue can be reached through the **RER B**, one of the lines of the Paris area local train system (RER - Réseau Express Régional) and the bus. Coming from Paris there are four options to reach IPa.

By foot (20 minutes)

One is to take a train that terminates at *Saint-Rémy-les-Chevreuse* or *Orsay* and get off at **Le Guichet**. Then take the pedestrian underpass at the front of the train and cross the street in the direction of the shops. Then continue to the right and turn left to take **Rue de la Colline**, and then turn right to take **Chemin du Bois des Rames** and continue straight to **Rue Belvedere**. Below you can see a map showing the path. **Warning, the path involves climbing as it is steep.**

By bus (15 - 20 minutes)

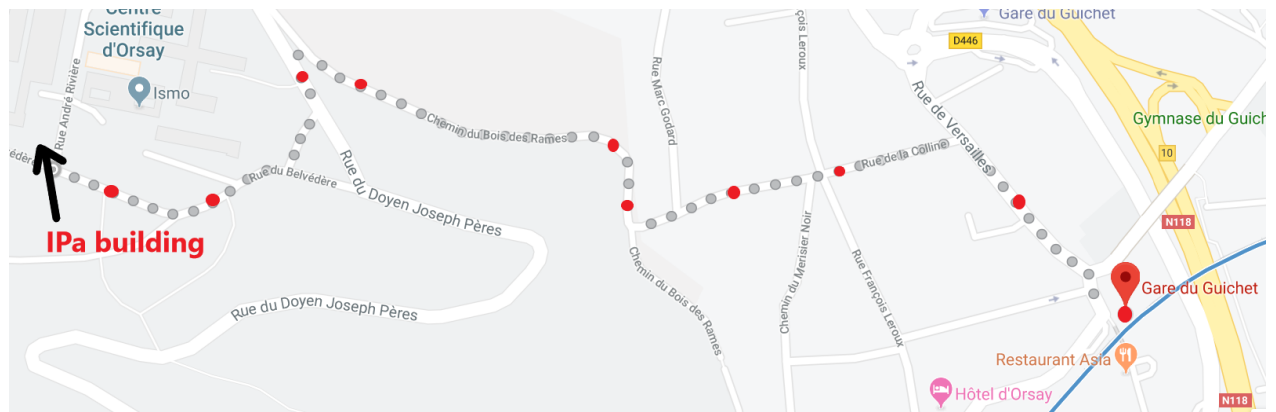

If you don't feel like climbing : after taking the pedestrian pass at **Le Guichet** turn right after the café and cross the street. A pedestrian way on the left leads to the bus station. Take bus 9 which leaves every 10 minutes and get off at **Université Paris-Saclay** stop. This bus is free with a weekly or monthly pass "**Navigo**". Otherwise, tickets can be purchased on the bus or you can use also subway tickets for Paris (*ticket t*).

The next option is to take the train RER-B to *Massy-Palaiseau* and take bus 91.06B, 91.06C or 91.10 which reach **Université Paris-Saclay** in 15-20 minutes. Trains and buses are more frequent at rush hours but they are also more crowded, and there are many buses lines in Massy so finding the right bus stop may not be easy the first time.

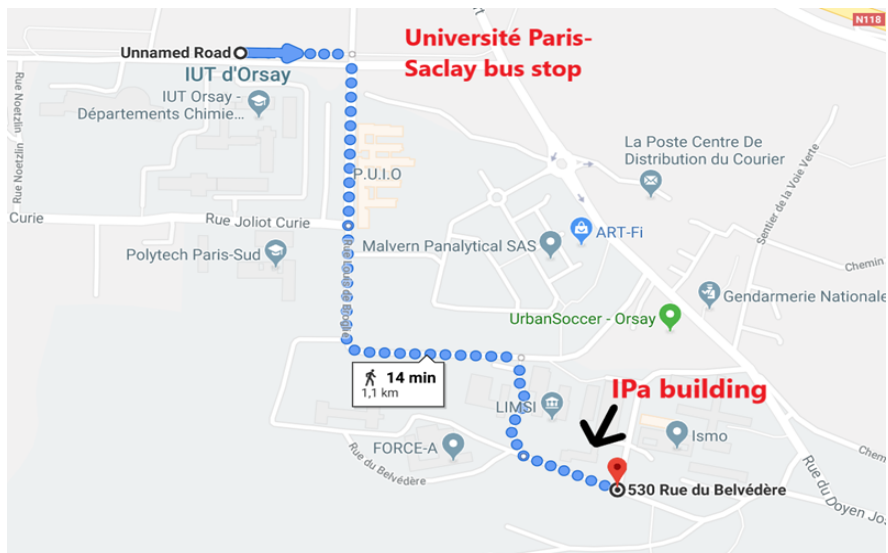

The last option is to take the train to *Saint-Rémy-les-Chevreuse* or *Orsay* get off at **Orsay Ville** station. While leaving the station head to the left and take the pedestrian underpass, then go straight until you get to the bus station. Then take bus 7 and get off at the station **Bois de Rames**.

Below you can find maps showing how to get from the bus stops to the venue.

Lunch

On Mondays, and on Wednesday the 23th, the Advanced Pattern Recognition program will set up a buffet in the open space on the first floor. On the other days, the canteen sur le plateau will be the place where we are welcome to enjoy a lunch around 1:00PM. It is situated just in front of the building.

You will be provided with a lunch ticket that you need to hand in to the cashier.

A Day at the Office

The venue - IPa building - consists of two conference rooms and 30 offices with a capacity to welcome 70 people. The premises will be shared with the workshop Astroparticules with a joint session Wednesday 23.

At your disposal there is a kitchen equipped with coffee machine, fridge and microwave.

There is an access to Eduroam-wifi in the building and the rest of the campus but if it does not work for you please ask one of the organizers for a password to the local network.

for issues with the scientific program feel free to call the organisers :

Andreas (+41 754113840) Andreas.Salzburger@cern.ch, David (+33 634986513) rousseau@lal.in2p3.fr,

for local issue feel free to call :
