

Session Program

25 November 2019

Fast timing & low gain silicon pixel detectors: Synchrotron and electron microscopy applications

Introduction and technology

Diamond Light Source, G54, Diamond House

Monday 25 November

11:00

Introduction and technology

Session | **Location:** Diamond Light Source, G54, Diamond House

11:00–11:10

Welcome and introduction

Speaker

Mark Richard James Williams

11:10–11:30

Technology overview

Speaker

Dr Richard Bates

11:30–11:40

Discussion

11:40
