Session Program

25-29 Sept 2023

9th FRIEND-Water Global Conference 2023 | Université Cheikh Anta Diop, Dakar

ST1 | Ecohydrology

Faculté de Médecine, Université Cheikh Anta Diop, Dakar, Senegal

Tuesday 26 September

ST1 | Ecohydrology: Dual regulation Session | Location: Amphitheatre | Conveners: Didier ORANGE, Oula AMROUNI, Ernest AMOUSSOU, Pascal BREIL, Maciej ZALEWSKI 11:45-12:00 Quantifying Environmental Water Use Speaker **Robert MILHOUS** 12:00-12:15 Two ecohydrological solutions to reduce urban runoff: examples from Lyon (France) and Quérétaro (Mexico) Speaker Pascal BREIL 12:15-12:30 Do the water stable isotopes (δ 18 O and δ 2 H) give insight into the hydrological impact of agroforestry systems? The case of Faidherbia albida parklands in the Senegalese Groundnut basin Speaker Djim M L DIONGUE 12:30-12:45 The effect of soil moisture on the physiological parameters of millet and groundnut during a period of water deficit at the beginning of rainy season. Speaker Mame Balla NDIAYE 12:45-13:00 The augmented biodiversity to improve the domestic waste water cleaning through Nature Based Solutions Speaker Didier ORANGE 13:00 14:30 ST1 | Ecohydrology: Dual regulation Session | Location: Room 1 | Conveners: Ernest AMOUSSOU, Oula AMROUNI, Didier ORANGE, Pascal BREIL 14:30-14:45 Monitoring of shoreline changes using aerial drone photogrammetry in Mediterranean coast Speaker Abderraouf HZAMI 14:45-15:00

Impacts of the spatial evolution of salinity conductivity and hydrogen potential (ph) in the fisheries of Lake Nokoue (southern Benin).

Speaker Florentin TOTIN

11:30

15:00-15:15

Caracterizing soil hydraulic properties using best method in a semi-arid agrosysteme parc land (the peanut basin of senegal)

Speaker

Waly FAYE

15:15-15:30

Smartcleangarden concept to provide a value to domestic waste waters in saving waters in tropical cities

Speaker

Didier ORANGE

15:30-15:45 Quantifying Environmental Water Use

Speaker

Robert MILHOUS

16:00

16:30

ST1 | Ecohydrology: Water related flux/ecosystem services estimation Session | **Location:** Room 1 | **Conveners:** Ernest AMOUSSOU, Pascal BREIL, Oula AMROUNI, Didier ORANGE

16:30-16:45

Study of the continental waters of the Republic of Djibouti: physico-chemical characteristics and biological (Biodiversity).

Speaker

Ibrahim SOULEIMAN ABDALLAH

16:45-17:00

The impacts of competing freshwater resource uses on quality : case of the transboundary Falémé River (Sénégal)

Speaker

Ange Bouramanding DIEDHIOU

17:00-17:15

Forest-Water Nexus: An Evapotranspiration assessment of the Kafue River Sub-Basin using remote sensing

Speaker

Muyaka KAMAMBA

18:00

Wednesday 27 September

quality index as a communication tool: Evidence from Ejigbo (Lagos-Nigeria) Speaker Isaiah AKOTEYON 09:15-09:30 The characterization of groundwater and assessment of water quality of the Continental Terminal aquifer in Casamance (Senegal): hydrodynamic - multivariate statistic and hydrochemical approach Speaker Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameter in the Pendjari River (Benin - West Africa) Speaker Simon AHOUANSOU MONTCHO	09:00-09:15 Groundwate	r quality and risk assessment of heavy metal pollution using wate
Isaiah AKOTEYON 09:15-09:30 The characterization of groundwater and assessment of water quality of the Continental Terminal aquifer in Casamance (Senegal): hydrodynamic - multivariate statistic and hydrochemical approach Speaker Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameters in the Pendjari River (Benin - West Africa) Speaker		
09:15-09:30 The characterization of groundwater and assessment of water quality of the Continental Terminal aquifer in Casamance (Senegal): hydrodynamic - multivariate statistic and hydrochemical approach Speaker Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameters in the Pendjari River (Benin - West Africa) Speaker Speaker	Speaker	
The characterization of groundwater and assessment of water quality of the Continental Terminal aquifer in Casamance (Senegal): hydrodynamic - multivariate statistic and hydrochemical approach Speaker Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameter in the Pendjari River (Benin - West Africa) Speaker	Isaiah AKOTEYO	۷
Continental Terminal aquifer in Casamance (Senegal): hydrodynamic - multivariate statistic and hydrochemical approach Speaker Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameter in the Pendjari River (Benin - West Africa) Speaker	09:15-09:30	
multivariate statistic and hydrochemical approach Speaker Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameter in the Pendjari River (Benin - West Africa) Speaker	The characte	erization of groundwater and assessment of water quality of the
Speaker Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameter in the Pendjari River (Benin - West Africa) Speaker		
Mouhamet Moustapha DIAW 09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameter in the Pendjari River (Benin - West Africa) Speaker	multivariate	statistic and hydrochemical approach
09:30-09:45 Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameters in the Pendjari River (Benin - West Africa) Speaker	Speaker	
Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameters in the Pendjari River (Benin - West Africa) Speaker	Mouhamet Mous	tapha DIAW
Spatiotemporal variability of water quality parameters in the Niger River Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameters in the Pendjari River (Benin - West Africa) Speaker	09:30-09:45	
Speaker Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parameters in the Pendjari River (Benin - West Africa) Speaker		oral variability of water quality parameters in the Niger River
Moussa BOUBACAR MOUSSA 09:45-10:00 Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical parametrin in the Pendjari River (Benin - West Africa) Speaker		
Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical paramet in the Pendjari River (Benin - West Africa) Speaker	-	AR MOUSSA
Monitoring Coastal Ecosystem Evolution for a Sustainable Blue food security Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical paramet in the Pendjari River (Benin - West Africa) Speaker		
Speaker Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical paramet in the Pendjari River (Benin - West Africa) Speaker		
Oula AMROUNI 10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical paramet in the Pendjari River (Benin - West Africa) Speaker	Monitoring C	Coastal Ecosystem Evolution for a Sustainable Blue food security
10:00-10:15 Linking fish assemblages to hydro-morphology and physico-chemical paramet in the Pendjari River (Benin - West Africa) Speaker	•	
Linking fish assemblages to hydro-morphology and physico-chemical paramet in the Pendjari River (Benin - West Africa) Speaker	Oula AMROUNI	
in the Pendjari River (Benin - West Africa) Speaker	10:00-10:15	
Speaker	Linking fish	assemblages to hydro-morphology and physico-chemical paramet
•		ari River (Benin - West Africa)
Simon AHOUANSOU MONTCHO	in the Pendja	
	-	
	Speaker	SOU MONTCHO

river watershed (DRC).

Speaker

Zouera SANI BOUBACAR GOUBE GAOH

10:30
