CP Violation in the B System: the Early Years

Thursday 19 June 2014 11:15 (30 minutes)

In this talk I review my most important contributions to the study of CP violation in B decays. They are all related to measurements of the weak phases , and . The proposed methods have been implemented in all B-physics experiments.”

Presenter: LONDON, David (Universite de Montreal)

Session Classification: (R-MEDAL) CAP Medal Talk - David London, U. de Montréal (CAP-TRIUMF Vogt Medal Recipient/Récipiendaire de la médaille Vogt de l'ACP-TRIUMF)
