Neutrino Theory Impacts

Tuesday 17 June 2014 15:45 (30 minutes)

Whereas great strides have been made in the experimental measurements of neutrino properties, a definitive theory of neutrinos is yet to emerge. I will discuss some selected theoretical ideas, including the possible link between neutrinos and other phenomena such as dark matter and astrophysics.

Author: Prof. MA, Ernest (University of California, Riverside)

Presenter: Prof. MA, Ernest (University of California, Riverside)

Session Classification: (T3-9) Neutrinos: Underground and Future - DTP -PPD-DNP / Neutrinos: sous terre et avenir - DPT-PPD-DPN

Track Classification: Particle Physics / Physique des particules (PPD)
