## **Remembering a Canadian giant, Erich W. Vogt (1929-2014)**

*Thursday, June 19, 2014 1:45 PM (30 minutes)*

I will retrace Erich Vogt's career as a science leader in Canada. As one of the influential physicists of his generation and a devoted member of the CAP, he contributed in many ways, always seeking to move Canada at the forefront. I will introduce the many facets of his involvement, but will focus on the nuclear physics aspects leaving the following speakers to fill in on the other achievements.
