Recent developments in astroparticle physics

Friday 20 June 2014 08:45 (30 minutes)

An overview of some recent developments in astroparticle physics, from a theoretical perspective. The talk will focus on searches for non-gravitational interactions of dark matter.

Author: RITZ, Adam (University of Victoria)

Presenter: RITZ, Adam (University of Victoria)

Session Classification: (F1-3) Future of Cosmic Frontier: Cosmolgy - PPD-DTP-DPIM / Avenir de la frontière cosmique: cosmologie - PPD-DPT-DPIM

Track Classification: Theoretical Physics / Physique théorique (DTP-DPT)
