Gravitationally induced quantum transitions

Tuesday 14 June 2016 19:00 (2 minutes)

Abstract

1. Introduction
2. ULTRA-COLD NEUTRONS IN A GRAVITATIONAL FIELD
3. GRAVITATIONAL PERTURBATION
4. NUMERICAL VALUES AND EXPERIMENTAL POSSIBILITIES
5. Conclusion
6. Acknowledgements
7. References

Authors: Mr LANDRY, Alexandre (Université de Montréal); PARANJAPE, Manu B. (Université de Montréal)

Presenter: Mr LANDRY, Alexandre (Université de Montréal)

Session Classification: DTP Poster Session with beer / Session d'affiches, avec bière DPT

Track Classification: Theoretical Physics / Physique théorique (DTP-DPT)
