## **A path to correspondence rules for SU3 Wigner function (G)\***

*Tuesday 12 June 2018 08:15 (15 minutes)*

I highlight how the problem of obtaining correspondence rules for SU3 Wigner function differs from that of the SU2 problem. I show how these rules are easily obtained for the Q-functions but how the transition from Q to Wigner functions for SU3 brings about novel features not present in SU2. A path to solution will be proposed.
