Session Program

Jun 6 – 11, 2021

Canadian Association of Physicists

Association canadienne des physiciens et physiciennes

2021 CAP Virtual Congress / Congrès virtuel de l'ACP 2021

M4-1 Optical spectroscopy (DAMOPC) / Spectroscopie optique (DPAMPC)

Underline Conference System

Mon, June 7

4:45 PM

M4-1 Optical spectroscopy (DAMOPC) / Spectroscopie optique (DPAMPC)

Session | **Location:** Underline Conference System | **Convener:** Duncan O'Dell

4:45 – 4:50 PM

(I) Radiative efficiency and global warming potential of fluorinated greenhouse gases

Speaker
Prof. Karine Le Bris

4:50 – 4:55 PM

(I) On the validity of many-mode Floquet theory

Speaker
Prof. James Martin

4:55 – 4:59 PM

In source laser resonance ionization spectroscopy of radioactive isotopes

Speaker
Jens Lassen

4:59 – 5:03 PM

Emergence of light-induced states in the few-photon ionization of atomic helium*

Speaker
Aaron Bondy

5:03 – 5:30 PM

Group discussion

5:30 PM
