

Session Program

6-11 Jun 2021

**Canadian Association
of Physicists**

**Association canadienne
des physiciens et physiciennes**

2021 CAP Virtual Congress / Congrès virtuel de l'ACP 2021

M4-1 Optical spectroscopy (DAMOPC) / Spectroscopie optique (DPAMPC)

Underline Conference System

Sunday 6 June

16:45

M4-1 Optical spectroscopy (DAMOPC) / Spectroscopie optique (DPAMPC)

Session | Location: Underline Conference System | Convener: Duncan O'Dell

16:45-16:50

(I) Radiative efficiency and global warming potential of fluorinated greenhouse gases

Speaker

Prof. Karine Le Bris

16:50-16:55

(I) On the validity of many-mode Floquet theory

Speaker

Prof. James Martin

16:55-16:59

In source laser resonance ionization spectroscopy of radioactive isotopes

Speaker

Jens Lassen

16:59-17:03

Emergence of light-induced states in the few-photon ionization of atomic helium*

Speaker

Aaron Bondy

17:03-17:30

Group discussion

17:30
