Promoting Learning in the Physics Classroom

Monday 19 June 2023 13:15 (30 minutes)

As teachers we want our students to learn. As students we want high marks. What classroom practices build a bridge between these wants? We will explore the role of questions and student cognition, white boards, and low-cost hands-on experiences to promote learning about the abstract concepts of electric fields and magnetic fields.

Presenter: PANKRATZ, Laura (Government of Alberta)

Session Classification: M-PLEN3 Plenary Session | Session plénière - Laura Pankratz, Kirkby Medal Winner
