## Democratizing Access to Quantum Technologies

*Tuesday 20 June 2023 11:10 (20 minutes)*

Udson Mendes has a PhD in Physics from the University of Campinas in Brazil. He was a postdoctoral fellow at the Laboratoire Pierre Aigrain at the École Normale Supérieure de Paris, and then at the Institut Quantique at the Université de Sherbrooke. Dr. Mendes' research has been focusing on the development of quantum technologies ranging from quantum hardware to quantum algorithms. Since joining CMC, he created the world's first cost-sharing fabrication service for superconducting devices and helped to train over 170 high qualified personnel in CMC's quantum workshops. Moreover, Dr. Mendes leverages his expertise to lead a team of quantum scientists working on applications ranging from cybersecurity to protein design to cancer diagnosis.

**Presenter:** MENDES, Udson ((CMC))

**Session Classification:** (DPE/CAP) T2-8 Q-STATE: Quantum Science, Technology, Applications, Training, and Education | Science, technologie, applications, formation et éducation quantiques (DEP/ACP)
