Welcome and Introduction to Physicists in the Private Sector

Wednesday 11 June 2025 10:15 (5 minutes)

Over 75% of physics graduates work in the private sector. Young physicists, or those interested in learning about physics career paths outside academia are encouraged to attend this interactive symposium, which will provide insights into the careers of private sector physicists and offer insights and advice into the possible pathways and training needed to transition your physics training into an engaging and rewarding career beyond academia. Included in the symposium day schedule is an interactive Panel Session, hosted by the Director of Private Sector Physics, and Director of Professional Affairs, where you can learn more about the people and their careers as private sector physicists.

Presenter: D'SOUZA, Ian

Session Classification: (DPSR/DPA) W1-7 Private Sector Physics | Physique en secteur privé (DRSP/DAP)
