

**Session Program**

**7-13 Feb 2016**

**Lake Louise Winter Institute 2016**

***Thursday***

Chateau Lake Louise

# Wednesday 10 February

08:30

## Thursday: THU-AM: Gravity and Neutrinos 1

**Session** | **Location:** Chateau Lake Louise, Mt. Temple A

08:30–09:30 **online LIGO press conference**

09:30–10:30 **Experimental Neutrino Physics**

**Speaker**

Prof. Jonathan Link

10:30–10:45 **Tea break**

10:45–11:00 **New results from RENO**

**Speaker**

Kyung Kwang Joo

11:00–11:15 **Recent results from Double Chooz**

**Speaker**

Ralitsa Sharankova

11:15–11:30 **Recent results from Daya Bay**

**Speaker**

Marco Grassi

11:30–11:45 **Status of the JUNO project**

**Speaker**

Yuekun HENG

11:45–12:00 **Status of the Prospect project**

**Speaker**

Dr Jason Brodsky

12:00

16:00

## Thursday: THU-PM: Neutrinos 2

**Session** | **Location:** Chateau Lake Louise

16:00–16:20 **New results from MINERvA**

**Speaker**

Vittorio Paolone

16:20–16:35 **Recent results from MicroBoone**

**Speaker**

Roxanne Guenette

16:35–16:50 **Latest results from MINOS+**

**Speaker**

Will Flanagan

16:50–17:05 **Latest results from NOvA**

**Speaker**

Evan Niner

17:05–17:20 **Recent oscillation results from T2K**

**Speaker**

Georgios Christodoulou

17:20–17:35

**The Charged-Current Cross Section on Water in the T2K Near Detector**

**Speaker**

Enrico Scantamburlo

17:35–17:50 **Tea break**

17:50–18:05 **Status of the DUNE project**

**Speaker**

Norm Buchanan

18:05–18:20 **Status of the Hyper-Kamiokande project**

**Speaker**

Hirohisa A. Tanaka

18:20–19:20 **Accelerated Universe and the Cosmological Constant Problem**

**Speaker**

Grigory Gabadadze

19:25
