

Session Program

22-23 Nov 2021

Workshop on Cold Rydberg Chemistry

Long-Range Rydberg Molecules

Tuesday 23 November

15:00

Long-Range Rydberg Molecules: in the Lecture Hall (Zoom)

Session | **Location:** University College London/University of Leipzig

15:00–15:30

How many ground state atoms can a Rydberg atom accommodate?

Speaker

Jan-Michael Rost

15:30–16:00

The Life and Fate of Ultra-Long-Range Rydberg Molecules

Speaker

Herwig Ott

16:00–16:30

Exploring the binding of long-range Rydberg molecules

Speaker

Michael Peper

16:30–17:00

Polyatomic ultralong range Rydberg molecules

Speaker

Rosario Gonzalez-Ferez

17:00–17:30

Double Rydberg Molecules

Speaker

Thomas Gallagher

17:30
