

# **IOP Particle Accelerators and Beams Annual Conference 2009**

## **Report of Contributions**

Contribution ID: 0

Type: **not specified**

## Neutrino Factories

*Friday 3 July 2009 12:35 (25 minutes)*

**Author:** ROGERS, Chris (STFC)

**Presenter:** ROGERS, Chris (STFC)

**Session Classification:** Accelerators for Particle Physics

Contribution ID: 1

Type: **not specified**

## **Radioactive Beams**

*Friday 3 July 2009 14:50 (25 minutes)*

**Author:** Prof. BUTLER, Peter (University of Liverpool)

**Presenter:** Prof. BUTLER, Peter (University of Liverpool)

**Session Classification:** Photon, Neutron and Nuclear Facilities

Contribution ID: 2

Type: **not specified**

## The Front End Test Stand

*Friday 3 July 2009 15:30 (15 minutes)*

**Author:** POZIMSKI, Juergen (Imperial College London)

**Presenter:** POZIMSKI, Juergen (Imperial College London)

**Session Classification:** Experiments and Technologies

Contribution ID: 3

Type: **not specified**

## Introductory Remarks

*Friday 3 July 2009 11:00 (15 minutes)*

**Author:** Prof. POOLE, Mike (STFC Daresbury Laboratory)

**Presenter:** Prof. POOLE, Mike (STFC Daresbury Laboratory)

**Session Classification:** Introduction and UK Strategy

Contribution ID: 4

Type: **not specified**

## **UK Accelerator Strategy**

*Friday 3 July 2009 11:15 (30 minutes)*

**Author:** Dr WOMERSLEY, John (RAL)

**Presenter:** Dr WOMERSLEY, John (RAL)

**Session Classification:** Introduction and UK Strategy

Contribution ID: 5

Type: **not specified**

## **Developing Light Source Solutions: NLS Studies**

*Friday 3 July 2009 14:00 (25 minutes)*

**Author:** Prof. WALKER, Richard (DIAMOND Light Source)

**Presenter:** Prof. WALKER, Richard (DIAMOND Light Source)

**Session Classification:** Photon, Neutron and Nuclear Facilities

Contribution ID: 6

Type: **not specified**

## **LHC and future upgrades**

*Friday 3 July 2009 11:45 (25 minutes)*

**Author:** Dr MYERS, Steve (CERN)

**Presenter:** Dr MYERS, Steve (CERN)

**Session Classification:** Accelerators for Particle Physics

Contribution ID: 7

Type: **not specified**

## Electron Colliders

*Friday 3 July 2009 12:10 (25 minutes)*

**Author:** Prof. BURROWS, Philip (University of Oxford)

**Presenter:** Prof. BURROWS, Philip (University of Oxford)

**Session Classification:** Accelerators for Particle Physics

Contribution ID: 8

Type: **not specified**

## Status of neutron facilities

*Friday 3 July 2009 14:25 (25 minutes)*

**Author:** Dr FINDLAY, David (STFC Rutherford Appleton Laboratory)

**Presenter:** Dr FINDLAY, David (STFC Rutherford Appleton Laboratory)

**Session Classification:** Photon, Neutron and Nuclear Facilities

Contribution ID: 9

Type: **not specified**

## The Muon Ionisation Cooling Experiment

*Friday 3 July 2009 15:45 (20 minutes)*

**Author:** Dr BOOTH, Chris (University of Sheffield)

**Presenter:** Dr BOOTH, Chris (University of Sheffield)

**Session Classification:** Experiments and Technologies

Contribution ID: **10**

Type: **not specified**

## **EMMA and ALICE**

*Friday 3 July 2009 16:05 (20 minutes)*

**Author:** Dr SAVELIEV, Yuri (STFC Daresbury Laboratory)

**Presenter:** Dr SAVELIEV, Yuri (STFC Daresbury Laboratory)

**Session Classification:** Experiments and Technologies

Contribution ID: **11**

Type: **not specified**

## **Laser Acceleration**

*Friday 3 July 2009 16:25 (20 minutes)*

**Author:** Dr HOOKER, Simon (University of Oxford)

**Presenter:** Dr HOOKER, Simon (University of Oxford)

**Session Classification:** Experiments and Technologies
