

New Physics with Neutron Stars

Report of Contributions

Contribution ID: 1

Type: **not specified**

Probing the Dark Universe with Neutron Stars

Thursday 6 June 2024 12:00 (40 minutes)

Presenter: MACDONALD, Jamie (Manchester)

Contribution ID: 2

Type: **not specified**

Searches for Radio Pulsars using Large Radio Telescopes

Thursday 6 June 2024 09:40 (40 minutes)

Presenter: LEVIN PRESTON, Lina

Contribution ID: 3

Type: **not specified**

A NICER view of Neutron Stars

Thursday 6 June 2024 10:20 (40 minutes)

Presenter: WATTS, Anna

Contribution ID: 4

Type: **not specified**

Dense matter in the QCD phase diagram and in neutron stars

Thursday 6 June 2024 11:20 (40 minutes)

Presenter: SCHMITT, Andreas (Southampton)

Contribution ID: 5

Type: **not specified**

The Curious Case of Neutron star-Black Holes

Thursday 6 June 2024 13:40 (40 minutes)

Presenter: CHATTOPADHYAY, Debatri (Cardiff)

Contribution ID: 6

Type: **not specified**

In Search of Ultra-low Frequency Gravitational Waves with Pulsar Timing Arrays

Thursday 6 June 2024 14:20 (40 minutes)

Presenter: VECCHIO, Alberto (Birmingham)

Contribution ID: 7

Type: **not specified**

Equality, DIversity and Inclusion Discussion

Thursday 6 June 2024 15:20 (1h 40m)

We will have a panel discussion to identify better ways to encourage a more diverse environment in which to do physics.
