

## **Session Program**

**1-5 Sept 2008**

# **8th International Conference on Position Sensitive Detectors**

## ***Novel Gas-based Detection Techniques***

University of Glasgow  
Glasgow G12 8QQ UK

# Monday 1 September

10:50

## Novel Gas-based Detection Techniques

**Session** | **Location:** University of Glasgow, Glasgow G12 8QQ UK

10:50–11:30

### Novel Gas-based Detection Techniques

**Speaker**

Prof. Harry van der Graaf

11:30–11:50

### A new design of MPGD: Micro-Mesh Micro-Pixel Chamber

**Speaker**

Atsuhiko Ochi

11:50–12:10

### An investigation of the position resolution of the HOTWAX detector

**Speaker**

Dr Dominic Duxbury

12:10–12:30

### A new generation of GEM detectors and their applications

**Speaker**

Vladimir Peskov

12:30–12:50

### Development of multi-tubes detectors at the ILL

**Speaker**

Dr Guiliana Manzin

12:50
