

Session Program

1-5 Sept 2008

8th International Conference on Position Sensitive Detectors

Detectors for Astrophysics and Astro-Particle Physics

University of Glasgow
Glasgow G12 8QQ UK

Monday 1 September

16:20

Detectors for Astrophysics and Astro-Particle Physics

Session | **Location:** University of Glasgow, Glasgow G12 8QQ UK

16:20–17:00

X-ray and Gamma-ray Detectors for Astrophysics

Speaker

Prof. Jürgen Knödseder

17:00–17:20

DM-TPC: a TPC with optical readout for directional detection of dark matter

Speaker

Prof. Herman Wellenstein

17:20–17:40

Performance results from the first ZEPLIN-III science run

Speaker

Henrique Araujo

17:40–18:00

X-ray detectors for Astronomy and Space Applications

Speaker

Prof. Andrew Holland

18:00–18:20

Imaging performances of the DRAGO gamma camera

Speaker

Prof. Carlo Fiorini

18:20
