

Fast radio bursts - Current state of the field

Friday 17 September 2021 14:45 (15 minutes)

I will briefly introduce fast radio bursts and highlight recent developments of the field from a theorist's perspective, as well as exciting observational developments presented at FRB 2021. I will also discuss the low-twist magnetar model for FRBs.

Abstract field

Author: WADIASINGH, Zorawar (NASA GSFC)

Presenter: WADIASINGH, Zorawar (NASA GSFC)

Session Classification: Pulsars II & Other HE Sources & Outreach

Track Classification: Pulsars, Other High-Energy Sources and Outreach
