

Session Program

1-5 Oct 2024

HEASA 2024

AGN I

Wednesday 2 October

11:00

AGN I

Session | **Location:** Wits Rural Facility, Orpen Road, Acornhoek, 1280 | **Convener:** Markus Boettcher

11:00–11:30 **Emission models for extreme blazars**

Speaker
Andreas Zech

11:30–11:45
An angle- and polarization-dependent synchrotron and synchrotron self-Compton blazar model

Speaker
Motseothata Tisang

11:45–12:00 **Decoding Blazar Polarization**

Speaker
Ms Lenté Dreyer

12:00–12:15
Searching for Signatures of Internal Gamma-ray Absorption in High-redshift Blazars

Speaker
Anton Dmytriiev

12:15–12:30
Optical spectroscopy and imaging of blazars for the Cherenkov Telescope Array Observatory

Speaker
Eli Kasai

12:30
