

Session Program

1-5 Oct 2024

HEASA 2024

Poster Session

Wednesday 2 October

16:00

Poster Session

Poster Session | **Location:** Wits Rural Facility, Orpen Road, Acornhoek, 1280

Relativistic Dynamics and Structure Formation in a Friedmann Universe

Speaker
Kennedy Konga

Refinement of the Proposed Gamma-Ray Burst Time Delay Model

Speaker
Mr Godson ABBEY

MIGHTEE: The radio luminosity and star-formation rate relation for galaxies in the COSMOS field

Speaker
Thando Mothogoane

The evolution of the 98 GHz ACT source population since $z = 4.5$

Speaker
Obakeng Phiri

The study of extended radio galaxies in MERGHERS fields

Speaker
Banele Mthembu

Studying the southerly eclipsing millisecond pulsar J1748–2446A using MeerKAT

Speakers
Senate Lekomola, Senate Lekomola

18:00
